DON'T OVERLOOK THE SMALLEST DETAIL

Many of the details of Magic are so simple that you may make the mistake of thinking them unimportant. That mistake is fatal. When explained, these details are ridiculously simple. Yet, how mystifying to your audience! I need not tell you this. The very tricks which have completely mystified you are based on these simple details. The Man in the Profession knows this. He knows that the whole of science depends on these small moves and poses. So remember, give strict attention to every detail of every lesson, and regard it with the same importance that the Professional Magician does.

-Tarbell pg. 6

CHALLENGE OF THE MONTH

Think about the mentor program. Whether you would like to be someone's mentor or find a mentor for yourself.

Reach out to someone about the possibilities of sitting down once a month or even more regular to talk magic and trade some industry secrets!

**LMC members and guests meet informally for dinner
around 5:30 p.m. on meeting nights.**

OUT OF MY HAT

Michael Raymer
President

As I write this it will soon be time to head down to Pigeon Forge for the Winter Carnival of Magic. It's a nice regional convention hosted by IBM Ring 58. Michele and I look forward to it because it's a nice getaway and it's not so jammed packed that you feel you'll miss something.

This month on Tuesday March 12, we'll have Eric Tait who is a comedy close-up magician and has been on Penn and Teller Fool Us and has received a number of awards in close-up competitions. Next month we'll have Bernardo Sedlacek from Brazil on Monday, April 8 so we hope to see you all at these two great lectures.

We've got a lot planned for the coming months so you won't want to miss anything and as Matt said a few issues back, try to meet up with your fellow members outside of club events. If you need help with something post in our Facebook group – that's where only the members can see posts and it's a great forum for asking questions, selling magic, having meet-ups, etc.

If you know someone interested in magic invite them to a club meeting we really are a great group of people and I'm proud to consider the LMC my extended family. I'm looking forward to seeing YOU at our next event.

Michael

EDITORIAL NOTE:

Please have all articles for inclusion in the next bulletin issue to us by the 20th of the Month.

From the Editor,

Happy March Magic Club! We're almost a fourth of the way through the year. But we still have a lot planned for our club and the surrounding community. Last month we had Mark Comley in to speak. It was a great lecture. If you have to chance to see him somewhere, I recommend it!

This coming month, we have Erik Tate from Penn and Teller visiting the club. It looks like it's going to be a good lecture. If you want to see him perform before the meeting, look for his Penn and Teller performance on YouTube.

I also hope your performance for the annual close up contest is coming together. I won't stop mentioning it until the competition gets here! I want to see a big turnout this year of competitors. Practice in your community if you don't want any of the club members to see the performance yet. Or find that mentor we've been mentioning and get together with them to help put a routine together.

I'm looking forward to the next few months! I hope you are as well. See you at the next meeting.

Matt
