A Message From the President

And More!

Our next meeting is April 11th at
Kosair. It will be a magic jam night!

APRIL MEETING

**Tuesday, April 11th
JAM Night!**

7:00 PM

Kosair Charities Center

982 Eastern Pkwy, Louisville, KY 40217

Bring yourself and some of your favorite tricks and magic books! We will be jamming and just having a good ol' fashion magic club get together.

Join us at Panera before the meeting for dinner.

3131 Poplar Level Rd

JAY SANKEY CANCELLED

We are sorry to announce the cancellation of the highly-anticipated Jay Sankey lecture scheduled for May. We know that many of you were looking forward to this event, and we share in your disappointment. We hope to reschedule with Jay in the future and will keep you updated on any developments. In the meantime, keep practicing your magic and we'll see you at the next meeting.

UPCOMING EVENTS

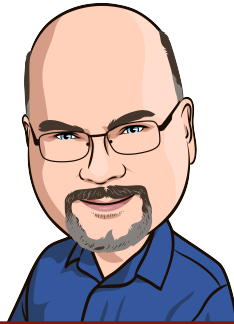

Friday, May 12th
Marcos Waldemar

Tuesday, June 13th
Annual Bag Challenge

OUT OF MY HAT | MICHAEL RAYMER

MESSAGE FROM THE PRESIDENT

WOW! I did not know you could do all that with a 3D Printer! That was so cool! Those were a few of the comments at the Bradley Morgan lecture. If you missed it, you missed a really fun night. Bradley is a creative guy and had some wonderful ideas about props and making magic seem effortless. He's one of those guys you just instantly become friends with. I think everyone in attendance had a good time.

Our April meeting will be on Tuesday, April 11th and will feature YOU. There's no agenda other than to just come hang out and talk magic. Share the Magic was a theme with one of the Society of American Magicians Presidents and that's what this meeting will be about – sharing your magic with each other. These meetings are a great opportunity to bring something you are working on and need help with, or you need help learning a certain sleight, like an Elmsley count or a double lift or second dealing.

Sorry we had to cancel the President's Magic Jam for March but we'll do our best to have one in April. I'm looking at April 27th as a possible date and I'll post the location on Facebook. Michele and I would like to thank you for all the prayers and support from our many LMC friends with the loss of her brother. Your friendship and support mean so much to us.

Unfortunately the Jay Sankey Lecture Tour had to be cancelled. Jay apologizes and said he will definitely try to reschedule his trip down from Canada another time. We do have Marcos Waldemar from Spain on Friday, May 12. Marcos is primarily a card magician so all you card guys will definitely want to be there for his lecture.

See you soon
Mike

DUSTIN TAVELLA AT J&B MAGIC

We've got some exciting news to share with you all. The recent winner of America's Got Talent, Dustin Tavella, recently performed at J&B Magic Shop in Indiana. And let me tell you, it was a show to remember!

But what's even cooler is that Dustin spent time in the shop the day before the show to meet and greet anyone that came by to say hello. That's right, he took the time to interact with some of the young aspiring magicians that came into the shop. How awesome is that?

It's always inspiring to see established magicians giving back to the community and helping to nurture the next generation of talent. And from what we heard, the show itself was amazing. Dustin wowed the audience with his magic and left everyone in awe.

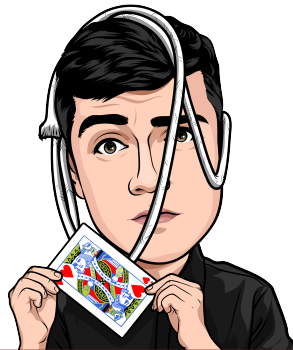

If you missed out on this event, don't worry. J&B Magic Shop is always hosting exciting events and bringing in top-notch talent. So let's all make an effort to get to the next one and experience the magic firsthand.

Until then, keep practicing your own magic!

Cheers to Dustin Tavella and J&B Magic Shop for an unforgettable experience!

FROM THE EDITOR | MATT SOHL

APRIL!

Greetings fellow magicians!

Our next magic club meeting is just around the corner, and we're excited to announce that it will be held on April 11th at Kosair. We hope to see you all there for an evening of magic and wonder.

At our last meeting, we were thrilled to see the use of 3D printing in magic. It's always amazing to see how new technologies can be incorporated into our craft. The possibilities are truly endless!

Speaking of new technologies, have you ever wondered about the possibilities of using AI in magic? AI has already proven to be a game-changer in many fields, and it's not hard to imagine how it could revolutionize magic as well. With AI, we could create even more complex illusions, or even automate certain aspects of our performances.

Of course, we know that there are some who might worry that AI could take away from the magic of the craft. But as with any new technology, it's all about how we use it. We believe that if used thoughtfully and creatively, AI could actually enhance the magic experience.

And now, we have a little surprise for you. This article was actually written by an AI language model! That's right, the future is already here. We hope you found it as informative and entertaining as any other article written by a human.

See you all on April 11th, and as always, keep the magic alive!

Best,
Matt

P.S. This is Matt actually writing this sentence. I couldn't let the robots write everything for me!
